

LAPS - Licensing and Permits

Licensing and Permits provides any and permits for specific items as: Burnings Taxicabs and Mobile Homes; issuance of licenses and permits for such Miscellaneous Permits module offers the structures which do not fit the other categories.

agency with the ability to track issued licenses Buildings, Bicycles, Firearms, Controlled generic modules are also included for tracking other items as may be needed. An additional ability to enter permits for address-validated

BUILDING INFORMATION - Captures data on buildings, prior to issuance of Building Permits. This file is shared with the Building Preplan file used in A-CAD and FIRES, but the information entered in this module is an abbreviated version of that entered in Preplan.

BUILDING PERMITS - Permits are issued for buildings defined either in the above module or in Preplan. This file is also shared with the Building Permits file in A-CAD and FIRES.

BICYCLE LICENSES - Licenses are issued for bicycles and descriptive information is recorded. Licensed bicycles are cross-referenced by CAPS Property, Pawn and Evidence modules.

FIREARMS - A series of modules provide the means for registration of firearms for personal use, for permit to carry or permit for other use of the firearm and for firearm dealer information. Registered firearms are cross-referenced by CAPS Property, Pawn and Evidence modules. FIREARM REGISTRATION records a description of the weapon; the Personal Information portion of the Registration module offers the operator the opportunity to have the system perform a criminal background check, accessing other CISCO files (if present in your installation). FIREARM PERMIT INFORMATION issues permits, specifies permit limitations and tracks expiration dates. FIREARM DEALER INFORMATION carries dealer identification, including name, address, contact, permit number and expiration date, weapon types sold.

OTHER LICENSES provides a means of issuing licenses for items other than those specifically offered. Fees are recorded and expiration dates tracked.

OTHER PERMITS provides a means of issuing permits for items other than those specifically offered. Fees are recorded and expiration dates tracked.

BURN PERMITS are issued to individuals for residential burning. **BURN TRANSACTIONS** record permit usage.

TAXICAB PERMITS capture data for taxi drivers, record fees and track expiration dates.
